Гид 1:

Dear, friends, now I'll show you our settlement. It's not very large but it's rather nice, the houses are high and modern, there are many shops, interesting places. Look on the left, you can see a kindergarten. The building is big and attractive. There is a nice playground, a lot of trees, flowers. The rooms in the kindergarten are large, there are beautiful pictures on the walls, and there are nice carpets on the floor, a lot of flowers. I think, children are happy to attend it.

Гид 2:

And now look in front of you. Can you see this magnificent, modern building? This is our House of Culture. It is made of glass and metal. We are very proud of it. They organize different meetings, concerts, celebrations there. Children can attend a lot of sections and clubs which functionate in it: sport, drama, art, and dance. People also

can see interesting films: action films, cartoons. I think that the House of Culture is the central and the most crowded place in Belogorsk.

Гид 1: Do you see this monument near the House of Culture? It is a monument to people who died during the Great Patriotic War. Here we organize meetings on the Victory day. We congratulate War veterans with this holiday; give them flowers at the monument. Then War veterans go to the House of Culture and have a concert and a party there and in the evening there is a salute.

Гид 2:

Now, raise your heads, please, there far away on the hill there is a mine. A lot of people work there, drivers, and machine – operators' etc. The wage is very high. Workers get from 15 till 40 thousand roubles a month but they work hardly.

Гид 1: Dear, guests! There is a shop over there, let's come in. Here you can buy some souvenirs. (После того, как гости купили сувениры, все идут на стадион. Это заключительный этап экскурсии)

Гид 1: Now, let's go to the stadium. It isn't as large as in great cities, and it is open but the place is amazing. As you see it stands on the bank of the river and it's surrounded by taiga. There are benches, green grass, trecks and a place for dancing. Sport competitions, celebrations often take place here.

Teacher: Dear, guests and students, I suggest you to play a little all together.

(Все играют в различные игры, затем подводится итог урока)
